

AdQue® Alfresco

AdQue Alfresco is designed to create unique marketing and communications opportunities where people are waiting, whether pedestrians or passengers in vehicles queuing in a drive-thru line.

AdQue Alfresco encloses and protects large format LCD or plasma displays ranging in size from 32" to 50". Intended for outdoor applications, AdQue Alfresco will protect the display from theft, vandalism and the elements. All AdQue Alfresco units come standard with a poly carbonate window, stainless steel mounts (wall, pole, or ceiling), and thermal management. Color variations and branding options are available to match existing finishes. Anti-reflective glass is offered as an option.

AdQue® Support

Behind the color, the drama, the action of the display screen and fixtures, resides the true heart of the AdQue® system.

It's what audiences don't see that our clients rely on everyday.

AdQue® is about service and that translates into being supportive and accountable in every aspect of concept, design, fixtures, hardware, software, installation, screen graphics, training and maintenance.
