

QueNews

Your Monthly Information Source for Everything AdQue.

Hello!

We had a great time in San Diego and Phoenix! It was wonderful to meet everyone and to put faces to names of people we have only talked to over the phone. We would like to congratulate all of the award winners. And, thank you to everyone who stopped by to see us. We are sorry if you missed us.

For those of you who are joining the newsletter for the first time, QueNews is published on the first Wednesday of every month, and includes all of the latest AdQue news, updates, and tips and tricks. Happy reading!

NEW FEATURES ARE HERE...

Web-based Albums, Calendars, and
Rateboards are available.

Albums, Calendars, and Rateboards can now be edited under the InfoQue tab in AdStudioExpress.

Create albums of community events or show progress on a new branch build. Get the word out about events you are sponsoring or financial seminars you are holding with a calendar. Display rates of any kind with a keystroke. All with AdQue's time-to-live and scheduling power, so no concern about old information displaying, and you can start working on events months in advance if you wish. Plus, they are all easy to use and update in minutes, so no worries about those last minute items either. You will find generic backgrounds in the Media Browser, and we will be happy to help you create custom backgrounds to match your branding.

Call or email us for more details,
or if you would like to set up a web demo.

SWiSH Tips & Tricks

Another helpful tool to space objects in your movie is the **Align window**. Use the Align Window to align, distribute, make same, or evenly space objects. These properties can be done relative to selected, parent, or stage. To align objects, go to: Window | Align. Then set what you want to "align to" and choose the type of alignment you want.

April's Generic Images . . .

Gradient color and large photos give this series a clean, crisp look. Each month images are released in all three standard resolutions. Is there a topic we are missing, or a design element you would like to see? Let us know. Email emw@adque.com.

AdQue Notes...

Does AdStudioExpress feel like it's running a bit faster? It should. Our bandwidth upgrade is fully in place! AdStudioExpress users should experience a 30-50% increase in response time. And, over the next few months we plan to add even more bandwidth to keep up with all of our new features. Where possible, upgrades will be done on the weekends and after hours to prevent any disruption of your AdQue System use.
