

Que News

Your Monthly Information Source for Everything AdQue.

Hello!

This month we have a spotlight on Employee Messages. Are you using your AdQue System to help keep employees informed? Many of our AdQue modules are in the process of being updated to keep our software on the cutting edge—adding capabilities, flexibility and optimization. As always, your generic images and swish tip are included.

Employee Message Boards

We received favorable feedback about the new Employee Message Board backgrounds released last month. So, we thought we would highlight employee messaging for those of you not already using your AdQue system for internal messaging. Use your AdQue system before hours to educate employees about mission statements, mailings, specials, holiday hours, casual days, or anything you can think of. Best of all it's simple! On our website under *InfoQue | Whiteboard*, type your messages in the Employee Messages topic. Then create a storyboard with the Employee Message topic and whatever other topics you would like to play—we recommend a short loop. Lastly, schedule the storyboard to play in the mornings until 5 or 10 minutes before opening, so your AdQue system can resume its default advertising storyboard. Ensure your employees are in the know and get the most out of your AdQue system! Please let us know if you have any questions. 877.246.7587 or contactus@adque.com

SWISH Tips & Tricks

Reshape vs. Transform : Reshape and Transform have the same operations: move, scale / resize, rotate and skew. However, Reshape applies only to shape objects, while Transform applies to all objects, groups and Movie Clips. Reshape permanently alters an object where transform can be removed to restore the original object. Transform will alter line width and Reshape will not.

August Generic Images...

You asked for more similarity between other backgrounds we offer and our monthly series, so this month's series has the same three photo design as the holiday images released in July. Look for matching InfoQue backgrounds next month, and let us know if you have another favorite series you would like to see duplicated into InfoQue backgrounds.

AdQue Updates:

We are always working to enhance our software. A few of the recent updates to the website and modules are detailed below. We always welcome suggestions for ways we can improve and would love to hear from you. 877.246.7587 or contactus@adque.com

- **Website Improvements:**

- **Better Thumbnails:** New Adjust Thumbnail tool allows you to choose which movie frame is the thumbnail
- **More Self Service Coin Info:** SSC dashboard has been improved with access to more data

- **AdQue Modules:**

- **New AdQue Server:** We have begun the initial rollout of this "player module". This module was created with the latest technology, making it extremely flexible and opening the way to provide better functionality, capability, and optimization in the future.
- **New AdSync:** This supporting module has been upgraded to perform downloads more efficiently as well as work around caching issues on internal proxy servers and firewalls.
